  - b. Id selector
  - c. Class selector
10. All opening HTML tags must be accompanied by appropriate close tags.
11. The **HTML and CSS** code must have proper indentation.
12. The **HTML and CSS** code must have appropriate comments.

## Submission Guidelines

- Save your web page in a folder with a name in the format of "LASTNAME\_Assignment3".
- Save your CSS file in the folder created above.
- Save the images in a folder within folder "LASTNAME\_Assignment3" called "images". Folder structure should look like "LASTNAME\_Assignment3\images".
- **Drag and drop** the zip file from its current location to our homework drop box at \\shssvr02\Public\Lemeshko Web Design Homework\Assignment3

## Additional notes:

Please note that there is an added emphasis on good coding practices in marks assigned to it. Nearly **70%** of your assignment marks depends upon HTML and CSS code which you write. Please be careful when writing your code.

There are marks awarded for elegant and well-designed web page.

I will strongly recommend spending a few minutes going through your code to make sure that you have met all the requirements before submitting it.
